Mission

Reliance Building Cleaning was established in 2007 in the UAE and is a part of the Reliance Gulf Technical Services L.L.C. We are providing professional cleaning services and assistance to all sectors across the country. Machineries and chemicals used are of high quality, which makes us the best solution provider for cleaning requirements in the town. Our team members are well trained and are strictly instructed to follow the rules and regulations of the UAE.

Vision

Reliance Building Cleaning was established in 2007 in the UAE and is a part of the Reliance Gulf Technical Services L.L.C. We are providing professional cleaning services and assistance to all sectors across the country.

Cleaning Services

We offer housekeeping services to our customers to help them keep their properties well maintained. Our housekeeping staff takes utmost care in keeping the property clean and looks after all the aspects regarding health and safety issues. Our professionals are well trained and we provide housekeeping services in residential as well as commercial buildings, hospitals, industrial, retail, showroom, schools and office.

Apart from housekeeping services we also provide services for:

Office and Residential Building Cleaning Services

It's a part of our philosophical approach to the way we do business and residential premises are to look at cleaning in a holistic manner. This means that cleaning offices and residence premises is much more than just surface cleaning. It's also about the overall health of the building and the people who work and live inside of it.

This simply means that if you are using cleaning services for your office and residence premises which merely clean at the expense of leaving harmful chemical residues or volatile organic compounds, you are defeating one of the main reasons for cleaning in the first place which is providing a sanitary environment for which tenant, employees and visitors can conduct business and live safely.

Facade Cleaning Services

The exteriors of the building create long lasting impressions. Our well trained personnel follow meticulous processes to clean windows of your properties. The tools and equipments used to clean the windows are state-of-the-art and that leave your windows sparkling and free of residue and streaks for a long time.

Our works covers everything from basic and advanced window cleaning removing strikers, paint from the glass, professional glass restoration, removing hard water stains, glass oxidation, cleaning cloudy glass and sealing glass. Special care is taken for safety of the cleaning staff and the inhabitants of the building.

Our Strengths

More Than 200 Well Trained Work Force ■ Dedicated And Professional Site Supervisors
Latest Machineries ■ Company Owned Vehicles ■ Quality Supervisors To Ensure
The Work Quality

With a team of more than 200 work forces, no doubt RBC is one of the best cleaning companies in UAE. We are working hand in hand with many of the most reputed companies in the country. Our growth was steady; it was all because of our Commitment, Professionalism and "Never say No attitude" to our clients. Commitment to our clients is always reflected in our service, and that makes us different from all our competitors. All our staffs are given professional in-house and onsite training programs to maintain high level quality standards. Our site supervisors handle each site with utmost care and responsibility; thorough checks are a part of our routine to maintain the cleaning standards. All staff proceeding on leave is replaced with suitable hand prior to their departure for a smoother and hassle free operation.

Our Service include

- Commercial building cleaning
- Institutional building cleaning
- Carpet cleaning
- Car parking cleaning
- Residential building cleaning
- Upholstery cleaning
- External window cleaning
- Office boy services.

Cleaning Services

Carpet and Upholstery Cleaning Services

Carpet cleaning is a necessity if you want your soft flooring to last as long as possible. Not only is regular carpet cleaning going to enhance the appearance of your home, it will remove the damaging particles deep within the fibers that can cause premature aging. This routine maintenance helps keep indoor air cleaner while extending the carpets lifespan. Remember, carpet is a filter, clean your carpet – clean your air.

Though upholstery cleaning is needed as often as carpet cleaning, the life it breathes into your furniture makes a noticeable difference when done periodically. We are committed to providing the best service available.

Marble Crystallization Services

Not even the best polished floor can compete with a crystallized floor surface. We achieve a real mirror appearance with a fascinating aesthetic effect. Dust has nowhere to adhere; maintenance time will be reduced to a minimum.

Crystallization utilizes a special polishing machine and a chemical agent that restores the marble to its original luster. This system actually polishes the surface of the marble itself, leaving no chemical residue that requires stripping. There is nothing left on the surface of the marble to yellow or peel.

Crystallization is not only cost-effective, it is low in maintenance. The process hardens marble surface and make it scuff and stains resistant

Technical Services

We have a full service technical service team that works round the clock to cater our customer's requirement. We offer prompt and professional MEP solutions across the country which covers everything from simple repairs to detailed and complicated projects.

Since its inception Reliance Building Cleaning has endeavored to offer the best quality service in the field of Technical Services. We are totally a self supporting organization in all its operation and thus achieve high level of productivity, time frames and economy in scale of operations.
